Garfield's Rescue Inc. delivers blankets to the animal shelter

Upon learning from a Lancaster County Animal Shelter supporter of a need for blankets for protection of the shelter animals from frigid temperatures, Garfield's Rescue Inc. (GRI) collected and delivered three bags of blankets to the shelter on a recent cold and blustery Saturday.

GRI promotes the importance of all Northern Neck rescue organizations and shelters working together toward the common goal of humane rescue, spay/neuter and care of the homeless animal population, reported GRI board member Karen Peterson.

Animal control officer James H. "Jamie" Abbott expressed his gratitude for the much-needed donation in a telephone conversation, said Peterson.
